

## An Easter message for the whole year

### Like a Brick Wall

We all know Easter has been a special time of remembering really how precious we are to God. But you know how hard satan works to convince us all of the opposite. It seems he's working harder than ever to keep us in fear more than faith. That's because faith is what really moves God's heart, not that He doesn't intend to meet our needs and hear our prayers, but wouldn't you really like to move God's heart. It's the next best thing to giving Him a big hug.

I also like to think of what faith in God does to satan. It has to be the worst thing he could run into, a child of God who is unmovable in their faith in their God. They never consider anything, but how faithful and able He is to meet every need, present and future, as we walk a walk of following His leading in our hearts and minds. For satan, it must be like running into a brick wall--over and over again. I like that visual. That's the faith I want to maintain. The Bible has told us it comes by hearing from God so we just need to listen, trust and simply follow --- and we can be like that wall.
